## Transportation Vacancies

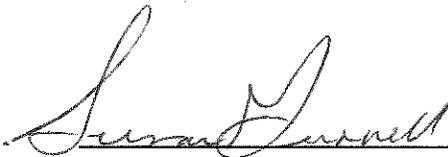

# Memorandum of Understanding between Huber Heights City Board of Education and DPSU

This agreement is adopted to address issues related to vacant bus routes during the year due to retirements, resignations or other reason:

1. To expedite the bus route selection process when a vacancy occurs due to a retirement, resignation, or other reason.

By this agreement, the parties acknowledge and adopt the following when a bus route becomes vacant:

1. Any bus route that becomes available after the start of the school year, or newly established after the start of the school year, shall be posted for two (2) HHCS school days in order for any interested and eligible bus driver to bid on it.
2. All drivers who have acquired a new route as a result of the original vacancy shall be placed in the new route upon completion of the bidding process. All routes shall be switched simultaneously to prevent disruption to student services.
