ARTICLE 25 - DISCIPLINE

25.1 The City of Euclid believes that all employees should be encouraged to work to the fullest extent of their ability. In an effort to keep the public trust and assist employees in working to the utmost of their ability, the City of Euclid will progressively discipline employees who violate any of the work rules attached as Exhibit B. No employee shall be disciplined, suspended, or discharged without just and proper cause.

A system of progressive discipline is administered in steps, with each step becoming more severe. The four (4) steps in the disciplinary process are:

1. Verbal Warning and Cautioning
2. Written Reprimand
3. Suspension
4. Discharge

Consistent with just cause, the City may impose a higher level of discipline than a verbal warning and cautioning for more serious offenses. An employee who is

disciplined must be notified within five (5) days from the date on which the City knew or should have known of the employee's infraction.

25.2 Verbal Warning and Cautioning. For most first offenses or violations of work rules, the employee will meet with his/her supervisor and discuss the violation. The employee shall have the right to have a Union representative present, upon request. The supervisor will explain how the employee's action or inaction violated the rule and will caution and counsel the employee on what corrective action needs to be undertaken. After that meeting the supervisor will make a written notation to the employee's file indicating that a verbal warning has been given, the date of the meeting, a short synopsis of the violation and what corrective action or steps have been discussed.

25.3 Written Reprimand. If the employee continues to violate the same rule for which the employee was previously given a verbal warning, if the employee violates different rules, or if the seriousness of the situation warrants it, an employee may receive a written reprimand. In the event of discipline, the supervisor will send the employee correspondence indicating the nature of the violation and, if appropriate, outlining the type of corrective action that needs to be undertaken by the employee. The written reprimand will be placed in the employee's file.

25.4 Suspension. If the employee continues to violate rules in which he/she has previously received a written reprimand, if different violations occur after receipt of previous written reprimands, or if the situation warrants more serious action, an employee may be suspended from duty without pay, subject to Section 25.1. Prior to any suspension an employee will receive a pre-disciplinary hearing from his/her Director, or his/her designee. Upon notice of a violation of the work rules that may warrant a suspension, the employee's immediate supervisor will notify the Director of the situation. The Director will initiate an investigation of the incident. If the investigation reveals that a suspension may result, the Director will notify the employee in writing that a pre-disciplinary hearing will be held with the Director at a designated time and place. The notification will outline the possible rule violations that have occurred. The employee has the option to meet privately with a Union representative before the conference and have the Union representative attend the conference with him/her and speak on the employee's behalf. At the conference the employee will be given the opportunity to explain the situation and give reasons for his/her conduct. At the conclusion of the conference, the Director has three (3) working days in which to notify the employee, Shop Steward and the Union Business representative of any suspension. The employee will receive a written letter indicating the disposition of the charged violations and the length of the suspension without pay. The letter shall describe in detail the reason or reasons for which the employee has been suspended. Any suspension shall be for a specific number of consecutive days on which the employee would have been regularly scheduled to work. Holidays occurring during a period of suspension shall be counted as work days for the purpose of the suspension only. A copy of said letter will be placed in the employee's file and will be forwarded to the Human Resources Office and the Civil Service Commission.

25.5 Discharge. In the event the employee has not corrected behavior previously dealt

with in any of the above steps or if the infraction is of a serious and/or grave nature, an employee may be discharged. Before an employee may be discharged, the pre-disciplinary procedure outlined in the Suspension Section above must be followed.

25.6 Each disciplinary action shall remain effective in the employee's personnel file for eighteen (18) months after the date of its issuance.

ARTICLE 26 - REOPENING OF AGREEMENT

26.1 Either party hereby desirous of making changes or modifications in this Agreement shall notify the other party pursuant to the requirements set forth in the permanent rules of the State Employment Relations Board No. 4117.-9-02, except, that the parties by mutual agreement may extend the time table set forth in O.R.C. Section 4117.

31.1 *Policy Statement.* Both the City and the Union recognize that alcohol and drug abuse are threats to the public safety and to the employees. Thus, the City will take the necessary steps,

including alcohol and drug testing, to eliminate alcohol and drug abuse. The goal of this policy is that of education, prevention and rehabilitation, rather than discipline and termination. Employees who believe they have a dependency problem, even in its early stages, are encouraged to seek diagnosis and follow-through with treatment that may be prescribed by qualified professionals, in order to eliminate the problem, as early as possible. The same benefits and insurance coverage that are provided for all other diseases under the City's insurance programs will be available for individuals who accept medically approved treatment for alcohol and drug dependency.

31.2 **Job Security.** It will be the responsibility of the employer to implement this policy and to assure that no person with an alcohol or drug dependency problem will have his/her job security or promotional opportunities jeopardized by a request for diagnosis or treatment. The decision to request a diagnosis and to accept treatment for alcohol and drug dependency is the personal responsibility of each employee. An employee's refusal to accept referral for diagnosis or to follow the prescribed treatment will be handled in accordance with other policies relating to job performance and/or discipline. Persons participating in the alcohol or drug dependency program will be expected to satisfy existing job performance standards and established work rules.

31.3 **Confidentiality.** It is imperative that all employees recognize and preserve the confidential nature of the medical records of employees with alcohol and drug dependency problems. If any employee feels that alcohol or drugs have become a problem that is reflected in their work performance, he/she is strongly urged to speak to his/her immediate Supervisor.

31.4 **Disclaimer.** Nothing in this statement of policy is to be interpreted as constituting a waiver of the Department's responsibility to maintain discipline or its right to take disciplinary actions, in case of poor performance or misconduct that may result from alcohol and drug dependency.

31.5 **Basis for Testing.** Employees may be tested for alcohol and drug related impairment, under any of the following conditions:

31.5(a) Where there is reasonable suspicion to believe that the employee is under the influence of, or their job performance is impaired by, either alcohol or drugs. Such reasonable suspicion must be based on objective facts or specific circumstances found to exist that present a reasonable basis to believe that the employee is under the influence of, or is using or abusing, alcohol or drugs. Examples of reasonable suspicion may include, but are not limited to, poor work performance, high level of sick time usage, unusual behavior or actions, involvement in an on-the-job accident resulting in personal injury or property damage, or involvement in a traffic accident while operating a City vehicle, where circumstances raise a question concerning the existence of alcohol use or drug abuse by the employee. The listing of these examples are not intended to exclude other situations that may give rise to reasonable suspicion of being under the influence of, or using or abusing, alcohol or drugs.

31.5(b) After participation in an alcohol or drug abuse rehabilitation program, an employee

shall be required to undergo three (3) urine tests, within the one (1) year period starting with the employee's completion of the program.

31.6 ***Order for Testing.*** If an employee is reasonably suspected of being under the influence of, or using or abusing alcohol or drugs, it shall be reported to the Service Director and he shall determine if alcohol or drug testing is warranted. If it is determined by the Service Director that the testing is warranted, he shall issue the order requiring that the test be taken. Nothing in this section shall prevent an immediate Supervisor, or the Service Director, from issuing the order that the test be taken if they reasonably suspect an employee to be under the influence of alcohol or drugs.

The individual first reporting to the Supervisor in charge shall give their reasons for doing so, in writing, to the Supervisor in charge, as soon as possible. This report shall be confidential, but a copy given to the affected employee, if requested, and shall be released to any person designated by the affected employee.

31.7 ***Testing Procedures.*** Specimen collection shall occur in a secure and private room and shall be witnessed by a person of the same sex as the donor-employee. Specimen samples shall be sealed, labeled against the identity of the employee to ensure the results match the employee tested, and stored in a secure and refrigerated atmosphere, until tested or delivered to the testing laboratory. If, after submitting the sample, abuse is suspected, the employee will be required to complete a form indicating all drugs currently being taken and any toxic substances he may have come in contact with. If alcohol abuse is suspected, the employee may submit to a breathalyzer test, to be administered by an operator licensed through the State of Ohio, Department of Health, if he so desires.

31.8 ***CDL Employees.*** In addition to the above, all bargaining unit members satisfying the definition of a driver in Exhibit "E", shall be subject to the procedure for alcohol and controlled substances testing set forth in Exhibit "E".

Such notice is for informational purposes only, and shall not be interpreted as modifying the terms of this Agreement. Each driver shall be required to sign a certificate of receipt that he/she has in fact received such policy. Any driver refusing to sign such certificate of receipt after receiving such policy shall be considered insubordinate and subject to discipline.

IV. PROHIBITION

No driver shall engage in any of the following prohibited activities:

1. Reporting to or remaining on duty requiring the performance of a safety-sensitive function with an alcohol concentration of 0.04 or greater;

Any driver using a controlled substance pursuant to physician instructions shall, prior to performing any safety-sensitive functions, submit to his/her supervisor a written statement from such physician indicating the substances used and that such substances do not adversely affect the drivers ability to safely operate a commercial motor vehicle.
8. Report for duty, remain on duty, or perform a safety-sensitive function if the driver tests positive for a controlled substance.

V. TESTING

1. Pre-Employment Testing.

Unless one of the exceptions of 49 C.F.R. § 382.301(b) or (c) apply, each driver, after receiving an offer of employment with the City, but prior to the first time he/she performs a safety-sensitive function for the Employer, shall undergo testing for controlled substances. Any driver promoted or transferred to a safety-sensitive position shall be treated as a new hire.

2. Post-Accident Testing.

Each of the following drivers shall, as soon as practicable following an accident involving a commercial motor vehicle, submit to a test for alcohol and controlled substances:

1. Any driver performing safety-sensitive functions with respect to the vehicle, if the accident involved the loss of human life; or
2. Any driver who receives a citation under State or local law for a moving traffic violation arising from the accident.

All drivers required to submit to Post-Accident testing shall remain readily available for such testing or will be deemed to have refused to submit to testing.

In the event a driver required to submit to Post-Accident testing is not tested for alcohol within two (2) hours of the accident, the employer shall insert a written record into the drivers file stating the reason for such delay. The employer shall continue attempts to obtain an alcohol test for up to eight (8) hours following the accident at which time attempts shall cease and the drivers record shall reflect the reasons for such failure to test.

In the event a driver required to submit to Post-Accident testing is not tested for controlled substances within thirty-two (32) hours following the accident, the employer shall cease attempts to obtain a test and shall insert a written record into the driver's file stating the reasons the test was not promptly administered.

3. Random Testing.

Drivers shall be subject to random alcohol and controlled substances testing. The random selection of drivers shall be made by a scientifically valid method, such as a random number table or a computer-based random number generator that is matched with the driver's Social Security Number, payroll identification number, or other comparable identifying number.

Testing shall be performed on an unspecified number of dates reasonably spread throughout the year and shall be at the minimum annual percentage rates of twenty-five percent (25%) of the drivers for alcohol and fifty percent (50%) for controlled substances. The employer may test at a lower or different rate for either alcohol or controlled substances if either such rate is changed by the Federal Highway Administration Administrator. Each driver shall have an equal chance of being tested each time selections are made. Actual dates of testing shall be unannounced.

Each driver selected for random testing shall proceed to the designated test site immediately, or as soon as possible after completion of any safety-sensitive functions then being performed.

A driver shall be tested for alcohol only while performing a safety-sensitive function, just before or just after performing such functions. A driver may be tested for controlled substances at the discretion of the employer.

4. Reasonable Suspicion Testing.

A driver shall submit to an alcohol test or controlled substances test if the employer has a reasonable suspicion that such driver may be violating the prohibitions of this procedure. The employer's determination that reasonable suspicion exists to require the driver to undergo an alcohol or controlled substances test must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver. The observations may include, without limitation, indications of the chronic and withdrawal effects of alcohol or controlled substances. The required observations for alcohol and/or controlled substances reasonable suspicion testing shall be made by a supervisor or Director who is trained in accordance with 49 C.F.R.

382.603. With respect to alcohol testing, such observations must be made just before, during or just after the performance of safety-sensitive functions. With respect to controlled substances testing, such observations may be made at any time.

A written record shall be made of the observations leading to a controlled substance reasonable suspicion test, and signed by the Supervisor or company official who made the observations, within 24 hours of the observed behavior or before the results of the controlled substances test are released, whichever is earlier.

With respect to alcohol testing, if a test is not administered within two (2) hours of the determination of reasonable suspicion, a written record shall be inserted into the driver's file stating the reasons why such test was not promptly administered. If an alcohol test is not administered within eight (8) hours of the determination of reasonable suspicion, all further attempts to obtain such test shall cease and the Employer shall insert into the driver's file a written record stating the reasons for not administering the test. In any event, no driver shall be permitted to perform or continue to perform safety-sensitive functions until:

1. An alcohol test is administered and the driver's alcohol concentration measures less than 0.02; or
2. Twenty-four (24) hours have elapsed following the determination of reasonable suspicion.

5. Return-To-Duty Testing.

Before any driver who has violated one (1) or more of the prohibitions concerning alcohol of this procedure returns to duty requiring the performance of a safety-sensitive function, he/she shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02.

Before any driver who has violated one (1) or more of the prohibitions concerning controlled substances of this procedure returns to duty requiring the performance of a safety-sensitive function, he/she shall undergo a return-to-duty controlled substances test with a result indicating a verified negative result for controlled substances use.

6. Follow-Up Testing.

Following a determination that a driver is in need of assistance in resolving problems associated with alcohol misuse and/or use of controlled substances, each such driver shall be subject to unannounced follow-up alcohol and/or controlled substances testing as directed by a substance abuse professional pursuant to Part VIII hereof. Follow-up alcohol testing shall be conducted only when the driver is performing safety-sensitive functions, just before such performance, or just after such performance. Follow-up controlled substances testing shall be conducted at the discretion of the employer.

VI. ALCOHOL AND DRUG TESTING PROCEDURES.

Alcohol and drug testing will be conducted by the City's designated medical professional.

1. Alcohol Testing.

Any driver subject to this procedure and required to submit to an alcohol test must provide an adequate sample of breath using an approved Evidential Breath Testing Device (EBT) to a Breath Alcohol Technician (BAT). The BAT shall explain the testing procedures to the driver and request him/her to complete and sign the certification statement of the Breath Alcohol Testing Form. (Refusal to sign this certification shall be considered a refusal to submit to a test).

1. After the driver has successfully provided the breath sample, the BAT will show him/her the test result displayed on the EBT and record the required information on the form.

If the test result is less than 0.02, no further testing is necessary.

If the test result is 0.02 or greater, the BAT shall instruct the driver not to eat, drink, belch, or put any object or substance into his/her mouth. The driver shall wait fifteen (15) minutes for a confirmation test. If the driver puts something into his/her mouth, or belches before the next test, the test will be given and the technician will note the fact on the form.

The BAT will show the driver the result of the second test displayed on the EBT, record the required information on the form and note problems that arose during the testing process. He/she and the driver shall sign and date the form.

The BAT shall transmit all results to the Mayor's designee in a confidential manner. If the test results are 0.02 or greater, the designee will remove the driver from safety-sensitive duties.

2. If the driver fails to provide an adequate breath sample, then he/she must be examined by a licensed physician to determine whether a medical condition precluded him/her from providing an adequate amount of breath. If the physician makes such a determination, the failure shall not be deemed a refusal to test.

If the physician cannot make such a determination, the failure to provide an adequate breath sample shall be deemed a refusal to test.

In either case, the physician/medical review officer (MRO) shall provide a written statement to the Mayor's designee of the basis for the physician's conclusion.

2. Drug Testing

Any driver subject to this procedure and required to submit a controlled substances test must present a photo identification card to confirm his/her identity to the collector and then provide at least a 45ml. urine specimen into a collection bottle in a room that both affords privacy to the individual and protects the integrity of the specimen. The collector will subdivide the urine specimen into two bottles in front of the driver. The two bottles of the driver's urine will be sealed and labeled by the collector, and initialed by the driver before they are shipped to a laboratory currently certified by the Department of Health and Human Services.

VII. NOTIFICATION OF RESULTS.

The employer shall notify the driver of the results of a pre-employment controlled substance test conducted under this part, if the driver requests such results within sixty (60) calendar days of being notified of the disposition of the employment application. The employer shall notify the driver of the results of random, reasonable suspicion and post-accident tests for controlled substances conducted under this part if the test results are verified positive. The employer shall also inform the driver which controlled substance or substances were verified as positive.

VIII. CONSEQUENCES.

If a driver has violated one (1) or more of the prohibitions of this procedure, he/she shall not perform safety-sensitive functions, including driving a commercial motor vehicle, except as provided herein. Removal from the performance of a safety-sensitive function shall not be subject to the Grievance and Arbitration procedure of this Agreement.

1. Evaluation by a Substance Abuse Professional

Each driver who engages in conduct prohibited by Part IV hereof, shall:

1. be advised by the employer of the resources available to the driver in evaluating and resolving problems associated with the misuse of alcohol and use of controlled substances, including the names, addresses, and telephone numbers of substances abuse professionals and counseling and treatment programs; and
2. be evaluated by a substance abuse professional chosen by the City who shall determine what assistance, if any, the driver needs in resolving problems associated with alcohol misuse and controlled substances use.

2. Returning to Duty

Before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited by Part IV hereof, the driver shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02 if the conduct involved alcohol, or a controlled substances test with a verified negative result if the conduct involved a controlled substance.

In addition, each driver identified as needing assistance in resolving problems associated with alcohol misuse or controlled substances use,

1. shall be evaluated by a substance abuse professional to determine that the driver has properly followed any rehabilitation program prescribed under this section, and
2. shall be subject to unannounced follow-up alcohol and controlled substances tests administered by the employer following the driver's return to duty. The number and frequency of such follow-up testing shall be as directed by the substance abuse professional, and consist of at least six tests in the first twelve (12) months following the driver's return to duty. The employer may direct the driver to undergo return-to-duty and follow-up testing for both alcohol and controlled substances, if the substance abuse professional determines that return-to-duty and follow-up testing for both alcohol and controlled substances is necessary for that particular driver. Follow-up testing shall not exceed sixty (60) months from the date of the driver's return to duty. The substance abuse professional may terminate the requirement for follow-up testing at any time after the first six (6) tests have been administered, if the substance abuse professional determines that such testing is no longer necessary. Any return-to-duty testing, substance abuse professional evaluation, and follow-up testing shall not be subject to the Grievance and Arbitration Procedure set forth in this Agreement.

3. Costs

The cost of the substance abuse professional's evaluation shall be the sole and complete responsibility of the driver.

4. Refusal to Submit to Testing

A driver who refuses a post-offer, pre-employment test will not be hired.

A driver who refuses a Return-To-Duty test will not be returned to duty.

A driver who refuses a Post-Accident, Random, Reasonable Suspicion, or Follow-Up test will be treated as if he/she had a positive result.

5. Discipline

Any driver violating one (1) or more of the prohibitions of Part IV hereof shall be suspended without pay until such time as he/she has completed any rehabilitation program prescribed by the substance abuse professional and to the satisfaction of the substance abuse professional.

Any driver found to have an alcohol concentration of 0.02 or greater but less than 0.04 shall be suspended without pay until the start of the driver's next regularly scheduled shift, but not less

than twenty-four (24) hours following administration of the test.

On the second occurrence of a driver's violation of one (1) or more of the prohibitions of Part IV hereof, such driver shall be terminated.

Any driver providing false information or attempting to falsify test results shall be immediately removed from duty and subject to discipline up to and including dismissal.

EXHIBIT "F"
MUTUALLY AGREED DISPUTE RESOLUTION

SECTION 1.

It is herewith agreed that no provision of Ohio Revised Code Section 4117.14 or any other section of the Code purporting to establish for public sector bargaining a process of negotiation, dispute resolution, settlement or approval shall be applicable as between the Union, its members and the City, save and except those specific provisions contained in Section 4117.14 of the Code which permit public employers and the exclusive representatives of public employees to reach agreement on issues by a procedure other than as provided for by Section 4117.14. The methods for negotiation, dispute, resolution, settlement and approval set forth in this Article are the exclusive procedure by which the parties hereto will seek to reach agreement on all subjects in dispute.

SECTION 2.

Within twenty-one (21) days or as soon thereafter as possible after ninety (90) days prior to the expiration date of this agreement, the parties shall meet at a mutually selected location to begin bargaining. Subsequent negotiating sessions will be convened by mutual agreement of the parties. Both sides shall be free to select their own representatives for purposes of bargaining and shall not be limited to employees of the City. Each team shall be represented by not more than six (6) representatives.

During the ninety (90) days prior to the expiration of the contract or during any mutually agreed extension of this period, the parties may meet to mutually agree on the selection of a mediator to assist them in reaching settlement.

No partial offer made or acceptance of a partial offer made shall bind either party to the partial offer or its acceptance until such time as the Agreement has been presented to the Union membership and approved. A vote by the membership of the Union to disapprove will restore the parties to the bargaining process without obligating either party to maintain positions held immediately prior to submission for approval. Likewise, a refusal by the City Council to approve a request for funds necessary to implement an agreement or to approve any other matter requiring its approval will restore the parties to bargaining without the obligation to maintain any previously adopted agreement. It is the intent of both parties that this agreed upon bargaining process be a free and open exchange, unencumbered by artifice, to the end that each side has a full and fair opportunity to persuade the other to agreement.

SECTION 3.

Approval/disapproval of any proposed agreement or partial agreement by the Union will be governed exclusively by the Union's own constitution or by-laws. The approval of a request for funds necessary to implement an agreement or partial agreement or the approval of any other matter by the City Council shall be governed by its rules and regulations and the applicable provisions of Ohio Revised Code Section 4117.10. The Union will vote first and the City Council will vote pursuant to Section 4117.10 only after written notice that the Union has ratified the agreement or

partial agreement.

SECTION 4.

In the event no agreement on all issues has been reached or no agreement to extend the current contract has been reached prior to November 30, 2014, the City and Union will meet to select an Arbitrator. If the parties cannot agree on the selection of an Arbitrator, the City and the Union shall jointly notify the American Arbitration Association (AAA) or the Federal Mediation and Conciliation Service (FMCS), of their intent to submit the unresolved issues to it to be resolved through binding arbitration. That notice shall include a request that AAA or FMCS forward to the City and the Union a panel (list) of seven (7) individuals from which the Arbitrator can be selected.

SECTION 5.

After AAA or FMCS has received the joint notice of the parties, it shall submit a list of seven (7) individuals to each party, and the Arbitrator shall be chosen therefrom by the alternate strike method, no later than the seventh (7th) day after the parties' receipt of the list of Arbitrators. The party striking first shall be determined by a coin toss. The hearing shall be held as soon as practicable after the date the Arbitrator is chosen. The City and the Union shall equally share the cost of services provided by the Arbitrator. The City and the Union shall pay the cost of their own witnesses and presentation. Any party desiring a reporter shall bear the cost of same.
