ARTICLE 1  
PREAMBLE/PURPOSE

This Agreement, entered into by the Fulton County Engineer, hereinafter referred to as the Employer or Engineer, and Ohio Council 8, American Federation of State, County and Municipal Employees, AFL-CIO, and its Local 2782, American Federation of State, County and Municipal Employees, AFL-CIO, hereinafter referred to as the Union, for the establishment of rates of pay, hours of work, benefits, and other terms and conditions of employment.

ARTICLE 2  
UNION RECOGNITION

SECTION 1.

The Engineer recognizes the Union as the sole and exclusive bargaining agent for employees in the bargaining unit as reflected in case No. 96-REP-02-0028, as follows:

INCLUDED: Highway Workers, Mechanic, Route Markers, Garage Clerk.

EXCLUDED: Engineer, Assistant Engineer, Highway Superintendent, Assistant Highway Superintendent, Senior Designer, Garage Foreman.

SECTION 2.

In the event the Engineer establishes a new classification within the highway department during the term of this agreement, the Engineer shall inform the Union of the creation of such classification. The Union may then request to meet with the Engineer within ten (10) days to discuss whether the classification should be included or excluded from the bargaining unit. If the parties are unable to agree on the bargaining unit status of the classification, the issue shall be subject to a Petition by the Union to the State Employment Relations Board (SERB).

If SERB determines that the classification is appropriately within the bargaining unit, or if the parties agree to include the classification, the parties shall meet to negotiate the rate of pay.

Nothing herein shall prohibit the Engineer from establishing an initial rate of pay or from filling the new classification pending the procedures and/or appeals set forth above.

### SECTION 3.

The parties agree that membership in the Union is available to all employees in the bargaining unit from their date of hire.

### SECTION 4.

Should the Engineer hire regular part-time employees in a bargaining unit classification, it will notify the Union when that decision is made.

## ARTICLE 3 UNION SECURITY

### SECTION 1.

- A. Check-Off/Union Dues: The Employer agrees to deduct Union membership dues once per month from the pay of bargaining unit employees upon receiving written authorization of the employee. The signed payroll deduction form must be presented to the Employer by the Union. Upon receipt, the Employer will cause deductions of Union dues, initiation fees, and assessments from the employees' payroll checks for the pay period(s) in which the authorization is in effect.

The Employer shall automatically be relieved from making such "check-off" deductions upon (a) termination of employment, (b) transfer to a job not covered by the bargaining unit, (c) layoff from work, or (d) an unpaid leave of absence. Each employee's written authorization for deductions shall be honored by the Employer until timely and properly revoked by the employee in accordance with its terms.

The Employer shall not be obligated to make deductions from an employee who during any month involved, shall have failed to receive sufficient wages to equal the deduction.

It is agreed that neither the employees nor the Union shall have any claim against the Employer for errors in the processing of deductions unless a claim of error is made to the Employer, in writing, within thirty (30) days after receipt of the dues check-off list. If such error is found, it will be corrected at the next pay period in which a Union deduction is to be made. Payroll collection shall be authorized for the exclusive bargaining agent only and for no other organization attempting to represent the employees within the bargaining unit.

- B. Fair Share Fee: Beginning on March 4, 1998 and thereafter all bargaining unit members who are not members in good standing of the Union are required to pay a fair share fee to the Union as a condition of continued employment. This condition is effective sixty-one (61) days from the employee's date of hire, or the date this Agreement is signed by the parties, whichever is later.

This fair share fee amount will be certified to the Employer by the Union. The deduction of the fair share fee from any earnings of the employee is automatic and does not require written authorization for payroll deduction. Payment to the Union of fair share fees deducted will be made according to the same procedure of the Agreement that governs the payment to the Union of dues deductions.

The payment will be accompanied by an alphabetical list of the names, social security numbers and current addresses of those employees for whom a fair share fee deduction was made and the amount of the deduction. This list must be separate from the list of employees who had union dues deducted.

- C. Fair Share Fee and Union Dues Deductions: The Union Dues Deduction and the Fair Share Fee Deduction (including initiation fees and assessments) checks shall be sent to Ohio Council 8, Controller, Ohio Council 8, AFSCME, AFL-CIO, 6800 North High Street, Worthington, Ohio 43085-2512, telephone number (614) 841-1918, along with the monthly employees listings of Union Dues and Fair Share Fee Deductions. The Union shall notify the Employer of the changes in amounts of the Union Dues Deductions, Fair Share Fee Deductions, fees, and assessments, and the appropriate location to send the monthly checks and listings.
- D. Indemnification: It is specifically agreed that the Employer assumes no financial liability arising out of the provisions of this Article and the Union agrees that it will indemnify and hold the Employer harmless from any claims, actions, or proceedings by any employee arising out of deductions made by the Employer. Once the funds are remitted to the Union, their disposition thereafter shall be the sole and exclusive obligation and responsibility of the Union.

The Union shall hold the Employer harmless, as a result of the provisions reflected herein and the Employer's compliance with these provisions.

## ARTICLE 4 NON-DISCRIMINATION

### SECTION 1.

The provisions of this Agreement shall be applied to all employees, without discrimination on the basis of sex, race, color, religion, disability, creed, marital status, age, national origin, disability, or other unlawful bias.

The Employer agrees not to interfere with the rights of employees to become members of the Union. There shall be no discrimination, interference, restraint or coercion by the Employer or its representative against any employee because of concerted or Union activity.

The Union agrees not to intimidate or coerce employees of the Employer into joining the Union or continuing their membership therein, and there shall be no harassment, intimidation, restraint, coercion or interference, with the rights of employees who choose to abstain from membership in the Union or involvement in Union activities. The Union shall represent all employees equally in the bargaining unit without regard to Union membership or involvement.

## SECTION 2.

The Union recognizes that the Employer must comply with the requirements of the Americans with Disabilities Act (ADA) even where a conflict may exist between the ADA and a specific provision of this Agreement. In the event an employee requests reasonable accommodation to a disability covered by the ADA, the Union and Engineer shall immediately meet to discuss possible accommodations that do not create an undue hardship on the Employer. If the Union and Engineer cannot agree, the Employer may implement or not implement its accommodation which action the Union may grieve and arbitrate.

## SECTION 3.

All references to the male pronoun in this Agreement are intended to designate both sexes.

## ARTICLE 5

### NO STRIKE/NO LOCKOUT

## SECTION 1.

Inasmuch as this Agreement provides procedures for the orderly resolution of grievances, the Engineer and the Union recognize their mutual responsibility to provide for uninterrupted services to the citizens of Fulton County during the term of this Agreement.

## SECTION 2.

The Union agrees that neither it, its officers, agents, representatives, or members will authorize, instigate, cause, aid, permit, sanction, support, sympathize, condone or participate in any strike, work stoppage, slowdown, or any other individual or concerted interruption of operations or services of the Engineer by its members or employees of the bargaining unit and its affiliates during this Agreement. The Union shall promptly take actions to end such activity. The parties agree that all disputes relating to the interpretation and/or application of any section of this Article shall be resolved solely through the grievance/arbitration procedure.

### SECTION 3.

The Engineer agrees that neither it, its officers, agents, or representatives, individually or collectively, will authorize, instigate, cause, aid or condone a lockout of bargaining unit employees during this Agreement.

### SECTION 4.

Any employee found to be in violation of this provision may be subject to disciplinary action.

## ARTICLE 6 DISCIPLINE

### SECTION 1.

No employee shall be disciplined except for just cause. If an employee is disciplined, the Employer shall serve the Union and employee a copy of the discipline against the employee with the reason for the discipline. The employee shall be required to sign an acknowledgement of receipt of such disciplinary action. An employee may appeal any disciplinary action through the grievance procedure beginning at step 3.

### SECTION 2.

All disciplinary actions, except upheld discharges, will cease to have any force and effect twenty-four (24) months after the effective date, providing there have been no intervening disciplines during the twenty-four (24) month period.

## ARTICLE 7 GRIEVANCE/ARBITRATION PROCEDURE

### SECTION 1.

The parties agree that any appeals regarding matters covered by this contract are required to be filed through the grievance/arbitration procedure of the contract. The term "grievance" shall mean an allegation by the Employer, Union, or employee that there has been a breach, misinterpretation, or improper application of this agreement. It is not intended that the grievance procedure be used to effect changes in this Agreement or to obtain any additional rights or benefits not part of this Agreement.

## SECTION 2.

Grievances should be processed at the proper step in the progression in order to be considered at the subsequent step except for grievances involving matters which cannot be resolved at a lower level. Grievances should be submitted to the lowest step of the grievance procedure where an Employer representative has authority to resolve this grievance. Any grievance may be submitted initially at Step 1. All time limits on grievances may be waived upon the written mutual agreement of the parties.

## SECTION 3.

The following steps shall be followed in processing grievances:

Step 1. Grievances shall be reduced to writing and filed with the Superintendent within seven (7) calendar days from the date the employee or Union should have had knowledge of the occurrence of the event giving rise to the grievance. Such grievance must be signed by the grievant or Union and must contain the following information to be considered: (1) the specific act(s) of the Employer that allegedly violate the agreement; (2) the date the alleged act(s) complained of occurred; (3) the date the grievance was filed; (4) the identity of employees or individuals who have knowledge of the facts concerning the event giving rise to the grievance; (5) the specific provisions of the collective bargaining agreement that were violated; and (6) the remedy sought. The Superintendent shall investigate the grievance and respond within seven (7) calendar days. If the Superintendent does not provide a response within seven (7) calendar days of receipt of the grievance, the Union or employee may appeal to the next step.

Step 2. If the grievance is denied or not answered at Step 1, the grievant or the Union may appeal to Step 2 by giving written notice of appeal to the Engineer within seven (7) calendar days. Such written notice of appeal shall state specifically the reasons for appeal. The Engineer or designee shall respond in writing within ten (10) calendar days.

Grievances alleging violations of actions taken by the Engineer shall be filed within the time limits specified for Step 1 filings.

Step 3. If the grievance is not resolved at Step 2, the Union may appeal to final and binding arbitration within ten (10) calendar days by requesting a list of seven (7) arbitrators from FMCS. The Union shall contact the Engineer to select an arbitrator within ten (10) calendar days of receipt of such list. Either party may reject one list. The moving party shall strike a name first.

Immediately upon selection of an arbitrator, the parties shall contact the arbitrator to select a mutually agreeable date to conduct the hearing which shall be no later than sixty (60) days if possible. If possible, the arbitrator shall issue his decision within thirty (30) days of the close of the hearing.

#### SECTION 4.

Any grievance not pursued by the grievant or Union shall be considered resolved on the basis of the Engineer's last answer and shall be final and binding upon the grievant, the Union, and the Engineer.

#### SECTION 5.

The time limits and requirements for filing and appealing grievances is mandatory unless a mutual extension, in writing, is agreed to and the failure of the grievant or Union to observe such time limits or requirements shall result in the grievance being considered withdrawn, abandoned, or settled. The failure of the Engineer to raise an objection as to compliance with the grievance procedure (e.g. timeliness) at any step shall not be a bar to the Engineer from raising such an objection at a later step. The Union may amend the grievance at any time within ten (10) calendar days of the second step answer. The Employer may amend its answer within ten (10) calendar days of the amended grievance.

#### SECTION 6.

A failure of probation is not subject to the Grievance Procedure.

#### SECTION 7.

The question of arbitrability of a grievance must be raised at least fifteen (15) calendar days prior to the arbitration. The first question to be placed before the arbitrator will be whether or not the alleged grievance is arbitrable.

#### SECTION 8.

The arbitrator shall be without authority to issue an award recommending any right or relief on an alleged grievance occurring at any time other than during the effective dates of this contract. In the event of a monetary award on a continuing grievance, the arbitrator shall limit any retroactive award to seven (7) days prior to the date the grievance was filed.

## SECTION 9.

An employee shall have the right to self-representation. In the event that an employee chooses self-representation, a Union Representative shall have the right to receive copies of documents relating to the grievance. However, if an employee chooses to be represented relative to a matter that is subject to this grievance procedure, it shall only be by the Union.

## SECTION 10.

The arbitrator, in reaching his decision and award, shall strictly limit himself to the interpretation, application or enforcement of the specific Articles and Sections of this Agreement and shall not add to, subtract from, alter, modify, amend, or improperly ignore any of the provisions of this written agreement. The arbitrator shall further be without power or authority to make any award that is contrary to, inconsistent with, changes, alters, or limits any practice, policy, rules or regulations presently or in the future established by the Engineer so long as such practice, policy, rule or regulation does not conflict with this Agreement.

The cost of the arbitrator shall be borne by the loser. The parties shall bear their own costs for witnesses.

## SECTION 11.

Bargaining unit employees shall not lose regular pay when participating in the grievance/arbitration activities under this Agreement.

## SECTION 12.

The Employer shall not be required to utilize the overtime roster to finish work in progress or in emergency situations that require immediate attention, e.g. tree on the road, traffic sign down. New employees shall be placed on the roster and credited with the number of hours of the highest employee. Employees on any type of leave, paid or unpaid, shall be credited with the total number of overtime hours worked while on leave.

Such overtime is mandatory. The Employer, at his option, may utilize part-time employees, supervisors, or non-bargaining unit employees if there are insufficient unit employees to meet the overtime needs of the Engineer.

If the Employer requires unit employees to work overtime, it may be done by requiring qualified employees to work overtime in reverse order of seniority. Employees must be reasonably available to work required overtime. Refusal to work mandatory overtime may result in disciplinary action. Overtime must be approved in advance by the Employer.

### SECTION 3.

Part-time employees shall not be placed on the overtime roster.

### SECTION 4.

Scheduled holidays, bereavement leave and vacation leave shall be considered time worked for overtime purposes. Sick leave and other types of leave shall not be considered as time worked for overtime purposes.

An employee who transfers from another public agency to the Engineer shall be credited with accrued unpaid sick leave up to the maximum of four hundred and eighty (480) hours. Use of sick leave is charged in one-half hour increments.

A medical doctor's actual signature is required.
- F. Sick Leave Abuse: Application by an employee for sick leave through fraud or dishonesty will result in denial of such leave together with disciplinary action up to and including dismissal. Patterns of sick leave usage immediately prior or subsequent to holidays, vacation, days off and/or weekends or excessive sick leave usage may result in sick leave denial and appropriate disciplinary action.
- G. Conversion Upon Retirement or Death: At the time of any PERS retirement or death, an employee shall be paid 1/3 the value of his accrued but unused sick leave credit based upon the rate of pay at the time of retirement or death not to exceed thirty (30) days. Such payment shall be made once and shall eliminate all sick leave accrued by the employee.

ALCOHOL AND DRUG TESTING POLICY

SECTION 1.

General: The provisions of this Article are intended to promote and ensure a drug free workplace and to comply with the Omnibus Transportation Act of 1991 (Act) and relevant U.S. Department of Transportation Regulations. The random drug and alcohol testing provision of this policy shall be effective January 1, 1996. It shall be the responsibility of the Engineer to implement and enforce this policy and the Act. Safety sensitive employees are subject to pre-employment, random, post-accident, reasonable suspicion, return to duty, and follow-up testing. Non-safety sensitive employees are not subject to post-accident and random testing, but are subject to other types of substance abuse testing as follows:

A. Pre-employment:

Each newly hired employee of the Engineer's Department shall be required to successfully complete a urine drug test. Further, an employee promoted or transferred into a safety-sensitive position shall be required to successfully complete a drug and alcohol test prior to performing any safety sensitive function. A newly hired employee's employment and a promoted or transferred employee's change into a safety-sensitive position shall be conditioned upon compliance with this provision. The Engineer may also request and receive background information from previous employers of new drivers relative to prior drug and alcohol test information.

B. Random Testing:

Safety sensitive employees shall be subject to random testing for drugs and alcohol on an unannounced and random basis. A scientifically valid method shall be used to randomly select such employees for testing. A safety sensitive employee selected for random testing must proceed or will be escorted immediately upon notification to the collection site. A refusal to submit to a random test which does not lead to a collection as soon as possible shall be considered to be a positive test, subjecting the driver to disqualification and discipline, up to and including discharge. A percentage equal to at least 50 percent of the average number of covered employees will be tested for alcohol annually. Each employee in the pool shall have an equal chance of selection and shall remain in the pool, even after the employee has been tested. This means that some employees may be selected more than once in a calendar year. The random selections will be reasonably spread throughout the year.

C. Post-Accident Testing:

An employee operating a County vehicle during work hours who is involved in an accident where a fatality has occurred shall be required to submit to post-accident drug and alcohol testing. Additionally, an employee who is

involved in an accident where major vehicle damage and/or injury that requires medical treatment away from the accident has occurred to any person involved in the accident and the employee is cited for violating the traffic laws as a result of an accident shall result in the employee being required to submit to post-accident testing. Following any accident, the driver must contact the Engineer as soon as possible. A refusal to submit to a post-accident drug or alcohol test shall be treated as a positive test, subjecting the employee to discipline up to and including discharge. The Engineer may substitute tests for use of drugs or alcohol administered by police or other public safety officers under separate authority in lieu of conducting his own testing. The employee must sign a release allowing the Engineer to obtain results from such federal, state or local officials. A post-accident alcohol or drug test shall be collected as soon as possible following the accident. If no alcohol collection can be made within eight (8) hours, attempts to collect a breath sample shall cease. If no urine sample can be obtained for purposes of a post-accident drug test within thirty-two (32) hours, attempts to make such collection shall cease. The supervisor or management shall direct employee to report to collection site immediately. The employee shall not be permitted to transport himself to the collection site.

D. Reasonable Suspicion Testing:

Employees who are personally observed, on duty, by at least one trained supervisor and/or management employee manifesting physical or behavioral symptoms, appearances, reactions, speech, or odors commonly associated with alcohol or controlled substance use or impairment shall be subject to testing. Such supervisor and/or management employee shall attempt to notify the Engineer or Superintendent, if reasonably available prior to, authorizing to have the employee undergo reasonable suspicion testing. The observing supervisor or management employee should document the grounds for his reasonable suspicion within 24 hours but no later than before the results of the tests are released whichever is earlier. A reasonable suspicion alcohol test should be administered within two (2) hours, but no later than eight (8) hours. The employee shall be accompanied by a supervisor or management employee of the department to the collection site.

E. Return to Duty Testing:

Any employee who has tested positive as a result of any of the above testing, and is not terminated from employment with the Engineer, will not be permitted to return to work until he has been evaluated by a substance abuse professional, completed any recommended rehabilitation, and has a negative test result on a return to duty test. The cost of the return to duty shall be borne by the employee.

F. Follow-up Testing:

Any employee who tests positive, and is not terminated from employment by the Engineer, may be required to participate in follow-up testing for up to 60

months from the employee's return to work if recommended by a Substance Abuse Professional. If the Substance Abuse Professional (SAP) recommends follow-up testing, the employee shall be required to submit to a minimum of six (6) unannounced follow-up tests within the first twelve (12) months after returning to duty. Follow-up testing shall be conducted just before, during, or just after the employee performs a safety-sensitive function and are in addition to random, reasonable suspicion and post-accident testing procedures. The SAP shall direct the schedule of unannounced follow-up testing. The cost of follow-up testing shall be borne by the employee.

### SECTION 3.

#### Testing Procedures:

The following test procedures shall be used for controlled substance and alcohol testing:

#### A. Controlled Substance Testing:

1. Urine specimens shall be collected at a collection site which complies with the procedures set forth in the Act and related regulations and which otherwise conforms to DOT protocols. Such urine specimen shall be split into two vials.
2. The collection site shall be responsible for transmitting specimen samples to a Substance Abuse Mental Health Service Administration (SAMHSA) certified laboratory for analysis. The laboratory shall perform a screening test on such specimen samples and if positive will conduct a confirmatory test using the GC/MS methods. The laboratory shall test for the presence of drugs and/or metabolites of the following controlled substances: (1) marijuana (2) cocaine (3) opiates (4) amphetamines and (5) phencyclidine (PCP).
3. All laboratory results will be reported to a Medical Review Officer (MRO) designated by the Engineer. Negative results will be reported to the Engineer. Before reporting a positive result to the Engineer, the MRO will attempt to contact the employee to discuss the test result. If the MRO is unable to contact the employee directly, he shall contact the Engineer, who shall in turn direct the employee to contact the MRO. Upon being so directed, the employee shall contact the MRO immediately.
4. Any individual testing positive may make a request of the MRO to have the secondary vial tested by a different SAMHSA certified lab. Such costs shall be borne by the employee. The request for testing of a second specimen must be made within seventy-two (72) hours of being notified by the Engineer of a positive test result.

The cutoff levels for positive test are listed below.

DRUG TESTING CUT-OFF AND CONFORMATION LIMITS		
DRUG	SCREEN CUT-OFF LEVEL	CONFIRMATION LEVEL
Amphetamines Methamphetamines	1000 ng/ml*	500 500
Cannabinoid (marijuana)	50 ng/ml*	15
Opiates Morphine Codeine	300 ng/ml*	300 300
DRUG	SCREEN CUT-OFF LEVEL	CONFIRMATION LEVEL
Phencyclidine (PCP)	25 ng/ml*	25

\* ng/ml means nanograms per milliliter. A nanogram is one-billionth of a gram. A milliliter is one-thousandth of a liter.

B. Alcohol Testing

Employee alcohol testing shall generally be conducted through the use of an evidential breath testing device (EBT) by a trained breath alcohol technician (BAT). The employee shall follow instructions given by the BAT. If the result of the screening test has an alcohol concentration of .02 or greater, a confirmation test shall be performed.

C. Confidentiality

Test results shall be confidential to the extent required by applicable law. The cost of any testing required shall be paid by the Engineer except as otherwise provided herein.

SECTION 4.

Positive Test Results or Prohibited Alcohol Concentrations

The following shall apply when an employee tests positive for alcohol or a controlled substance or has a prohibited alcohol concentration pursuant to any of the above testing.

A. Driver and Employment Eligibility

1. Any safety sensitive employee who, pursuant to any of the required testing above, is found to have an alcohol concentration of .02 or greater but less than .04 shall not be permitted to perform safety sensitive functions for at least 24 hours. The employee shall also be placed on unpaid leave until he/she is fit to return to duty.
2. Any employee who is found through any required testing to have an alcohol concentration level of .04 or greater or tested positive for drugs and is not terminated from employment, shall be prohibited from operating County vehicle. An employee not permitted to drive shall be placed on unpaid leave.

Further, such employee shall be referred for professional assistance and not permitted to return to work until he has completed recommendation rehabilitation and has a negative test result on a return to duty drug test.

3. Nothing herein shall require the Engineer to provide alternate employment during the period when the employee is not in compliance nor is there any obligation on the part of the Engineer to retain an employee who violates the Act or this policy.

B. Discipline and Rehabilitation

1. In addition to the above consequence for a positive test result, the County Engineer may discipline an employee, up to and including discharge, for violations of the Act, this policy, and/or misconduct or poor performance resulting from an alcohol or substance abuse problem. However, any discipline may, at the discretion of the Engineer, be mitigated by the willingness of the employee to complete a rehabilitation program, if offered. In no event shall an employee be permitted more than one chance at rehabilitation.. Failure to complete or participate in a prescribed rehabilitation program shall result in the employee's discharge. A refusal to test or a positive test result on a return to duty or follow-up test shall be cause for termination. The cost for rehabilitation services shall be paid by the employee except that the employee may use any benefits provided under the County's health insurance plan.
2. Nothing herein shall be construed as a guarantee that the Engineer will offer an employee an opportunity for rehabilitation. The Engineer's decision as to whether or not an employee shall be offered rehabilitation and therefore not discharged, shall be made on the basis of the circumstances surrounding the employee's positive drug test and considerations such as any other misconduct resulting from the employee's substance abuse (e.g. injury, property damage, etc.), the employee's work records, and other factors traditionally considered when determining whether to retain an employee.
3. An employee who voluntarily seeks rehabilitation for a drug or alcohol problem prior to detection shall not be disciplined.

C. Refusal to Test

Employees who refuse to submit to required testing shall be subject to disciplinary action up to and including discharge. A refusal to test for purposes of this policy shall include (1) a failure to provide a sufficient sample provided there does not exist a valid medical explanation as to why the employee was unable to do so, (2) any conduct which clearly obstructs the testing process such as unavailability or a delay in providing a sample, and (3) a failure to execute forms required as part of the testing process.

D. Test Results

For purposes of this policy, a positive test result shall mean .04 or greater for alcohol or a level above those established by the Department of Transportation in the screening and confirmatory tests for marijuana, cocaine, amphetamines, opiates, and phencyclidine. A test result for alcohol between .02 but less than .04 shall be considered a prohibited concentration.

SECTION 5.

Prohibition Against Use of Alcohol or Controlled Substances:

The Engineer seeks to provide a workplace for employees that is free from the risks posed by the use of alcohol and controlled substances. Therefore, the unlawful manufacture, distribution, being under the influence, sale, possession, or use of a controlled substance or alcohol is strictly prohibited in the workplace. An employee is subject to discipline up to and including immediate termination from employment and/or referral to an appropriate law enforcement authority for violation of this policy. In specific regard to alcohol use, employees are prohibited from any use that could affect the performance of the employee including use during the four (4) hours prior to work, having prohibited concentrations of alcohol in their system while operating a vehicle, and use of alcohol during the eight (8) hours after an accident.

SECTION 6.

Supervisor and Employee Training:

The Engineer will ensure that persons authorized to determine reasonable suspicion are trained, in compliance with the Act, to recognize the symptoms of impairment and intoxication. Further, employees of the department shall be provided a copy of this policy prior to the start of alcohol and controlled substances testing under the Act as well as other information concerning the effects of alcohol and controlled substance use, signs and symptoms of substance abuse problems, etc. All employees will be informed of the Engineer's testing policy before its implementation. All new employees will be provided with this information when initially hired. Employees shall not be tested until information has been provided.

SECTION 7.

Medical Prescriptions:

Employees who are taking prescription medication that may cause impairment or drowsiness must furnish the Engineer with a statement from a physician specifying the drug being taken and whether the drug will interfere with safe performance of the employee's job.

## SECTION 8.

### Employee Status:

Employees shall be on paid status while submitting to any random, post-accident, reasonable suspicion or follow-up testing performed during times when the employee is scheduled to work. An employee who is not permitted to return to work pending the outcome of a test result conducted pursuant to the provisions relating to reasonable suspicion testing and where the test result is ultimately negative, shall be paid for the time he was not permitted to work.

## SECTION 9.

Public Records Requests

The Employer, Fulton County Engineer, gave the President Dean Boger, a copy of the Fulton County Engineer, Policy on Public Records, as circulated by Fulton County. This copy was for information of a county policy only.

Discussion reflected that the bargaining unit employees, is not responsible, as a custodian of records for the Employer or for Fulton County on any of these matters. Also, the Parties reflected that certain, per law, is prohibited from publication(s), which include but not limited to medical records, alcohol and drug testing, and certain ODOT regulations.
