ARTICLE IV-DUES DEDUCTION

SECTION 1. During the term of this Agreement, the Employer shall deduct initiation fees, re-initiation fees and entry fees as are regularly levied by Local 436 and the regular monthly Local 436 dues from the wages of those employees who have voluntarily signed dues deduction authorization forms permitting said deductions.

ARTICLE XXXIII – CITY OF SOLON IMPLEMENTATION POLICY AND RULES GOVERNING CONTROLLED SUBSTANCE AND ALCOHOL TESTING FOR BUILDING INSPECTORS

A. Introduction

The parties are committed to maintaining an efficient, effective and safe work environment in order to safeguard personnel, property, equipment and the citizens being served. The Employer and the public also have a reasonable expectation that employees will be free from the effects of drugs and alcohol. The Employer has the right to expect employees to report for work fit and able for duty. As a result, the Employer and the members of this bargaining unit agree that it is the purpose of this article to absolve or eliminate illegal drug usage and/or alcohol abuse problems through education and rehabilitation of any affected employee.

Employees' action regarding possession and usage of alcohol or drugs, both on and off duty is governed under the Rules and Regulations for the Operation of the Solon Building Department and the Employer's Drug and Alcohol Policy. To ensure conformance to the Rules and the goals of a drug and alcohol free workplace, employees will be subjected to alcohol and/or drug testing under any of three distinct circumstances as described in Sections B, C, and D below. Acceptable testing procedures and methodologies are described in Section E, below.

B. Post-Accident Testing

Drug and alcohol testing of employees will be conducted following a motor vehicle accident if all the following conditions exist:

1. While driving a City vehicle the employee is involved in an accident and is cited for a moving violation of any kind, and,

2. Any involved vehicle requires towing from the scene, and,

3. Any personnel involved requires medical treatment away from the scene of the incident, and,

4. Injury occurs that requires medical treatment beyond the first aid and/or lost time, and,

5. Damage to property exceeds $2,000 (Two Thousand Dollars and 00.100).

C. Reasonable Suspicion Testing

If objective evidence exists and is documented which establishes reasonable cause to believe that an employee's work performance is impaired due to drug or alcohol use or abuse, an employee will be required to submit to drug and alcohol testing. Each time there is cause for reasonable suspicion testing, separate suitable documentation shall be prepared and maintained by the Employer.

D. Random Drug and Alcohol Testing

Employees covered under this Agreement are subject to "random" drug and alcohol testing subject to the procedures and methodologies described in Section E below, at the following percentage:

1. All covered employees will be subject to a random test at a rate of 10% per annum out of the pool of all City employees. - Any bargaining unit member who must have a commercial driver's license as a condition of employment shall be part of the city's commercial driver's license pool for purposes of random drug and alcohol testing with all other provisions of this article to apply.

2. The Human Resources Department shall submit a list of active personnel on the city's payroll to the city's Third Party Administrator who administers the random selection, prior to January 31st of each year. Ten percent (10%) of the active personnel recorded on the list shall be randomly pulled for testing. This list shall exclude CDL driver's currently participating in random testing in accordance with Federal Department of Transportation regulations, Seasonal Employees and any other exempt employee(s) and shall be provided to the bargaining unit.

3. No covered employee will be entered into the pool subject to random drug and alcohol testing until such time as recommended training has been provided by the Employer to meet Ohio B.W.C. minimum standards (two hour training for employees, additional four hour training for supervisors). Newly hired covered employees will be entered into the pool as soon as they have been provided similar training. This required training will also cover the Employer's Drug and Alcohol Policy as it applies under the terms of this Agreement. No covered employee will be entered into the pool subject to random drug and alcohol testing until being provided with a copy of the Employer's Drug and Alcohol Policy, a copy of the Rules and Regulation for the Operation of the Solon Building Department, and being given the opportunity to sign an acknowledgement that the training and documents have been received.

4. The Employer will contract with an independent third party to provide random selection services through the use of a computerized random number generation program at the percentage discussed above. To maintain confidentiality of the process, the third party contractor will exclusively have contact with the Director of Planning and/or the Director of Human Resources for purposes of notifying selected employees that they have been assigned to be tested.

5. As the purpose of "random" testing is to proactively keep employees and citizens safe from the effects of illegal drugs and alcohol in the workplace, all "random" testing of covered employees will be for illegal drugs, amphetamines & opiates, and alcohol. At the time of each individual test, such testing shall be for illegal drugs, amphetamines, opiates or alcohol.

E. Testing and Methodologies

In an effort to ensure the accuracy, confidentiality and trustworthiness of the process, the following methodologies will be required:

1. Medical Review Officer

   The Medical Review Officer (MRO) plays a key role in the testing process, in both interpretations of test results as well as notification of involved parties. As such, the MRO must be a licensed physician in the state of Ohio who maintains current certification from the Medical Review Officer Certification Council (MROCC) or the American Association of Medical Review Officers (AAMRO).

   The MRO must examine alternative medical explanations for any positive test results. This action will include conducting a medical interview with the affected employee, review of the employee's medical history and review any other relevant biomedical factors. Upon request, the MRO must review all-medical records made available by the tested employee when a confirmed-positive test could have resulted from a legally prescribed medication.

   The MRO may not have any business relationship with the laboratory used for testing that causes a conflict of interest or the appearance of a conflict of interest as defined under D.O.T. guidelines.

2. Sample Collection

   The collection of samples shall be performed only by health care professionals who are qualified and authorized to do such collections and meet current D.O.T. collection standards and certification requirements, operating under the direction of the MRO approved in subsection E (1) above. Documentation that collectors have met D.O.T. training requirements for both drug and alcohol testing are to be provided to the city's Director of Human Resources by March 1st of each calendar year and provided to the collective bargaining unit.

   Blood or urine samples will be submitted as per National Institute on Drug Abuse (NIDA) standards and D.O.T. guidelines under 49 CFR Part 40. Employees have the right to have a witness or a designated representative present during the collection/submission of any sample, unless this causes a delay beyond thirty minutes for such collection/submission.

   The collection site will operate using non-federal testing that follows the federal model. A sufficient sample will be collected in all cases to provide for split specimen testing.

   The collection site will begin the chain of custody of all samples submitted using the federal model, identifying each specimen through use of an identifying number only with no other employee information. Identities of each employee will be kept in the custody of the MRO/collection site.

3. Alcohol Testing

   Preliminary alcohol testing will be by a certified technician as provided for above, using an Evidentiary Breath Testing Instrument. Certification of the instrument designated for use must be provided to the Director of Human Resources prior to March 1st, of each year testing is to occur.

A preliminary test result of .04 grams per 210L of breath will be considered positive. Preliminary test results that are below .04 shall result in the discontinuation of testing. Test results that are positive shall result in an immediate confirmatory test being run. The confirmatory test shall be a second breath alcohol content test unless the bargaining unit member requests a blood alcohol content test. Sample handling procedures as detailed in subsection E (2) above shall apply. A confirmatory test result of .04 grams per 100 ml of blood and/or .04 grams per 210 liters of breath will be considered a positive test result and reported to the MRO.

4. Laboratory Procedures

The laboratory utilized for blood and urine testing will be designated by the Employer after a recommendation of the Teamster Local 436 prior to March 1, of each calendar year in which testing is to take place. The laboratory must have a current certification that it meets College of American Pathologists' Forensic Drug Testing Accreditation standards as well as proof that it is operating with Department of Health and Human Services/Substance abuse and Mental Health Services Administration (SAMHSA) certification.

Strict chain of custody procedures must be followed for all samples as set by NIDA. The Employer and members of Teamsters Local 436 agree that security of submitted biological samples is such a paramount issue that any breach of the chain of custody or apparent tampering with sample integrity results immediately in an invalid sample that may not be used for any purposes. A split sample shall be reserved in all cases for an independent analysis in the event of a positive test result. All samples must be stored in a scientifically acceptable preservation manner as established by NIDA. All positive confirmed samples and related paperwork must be retained by the laboratory for at least one year or for the duration of any grievance, disciplinary action or legal proceedings regarding the sample, whichever is longer. At the conclusion of said period, the sample is to be destroyed along with laboratory maintained paperwork.

The laboratory is authorized to test only for the following drugs or classes of drugs: marijuana metabolites, cocaine metabolites, opiate metabolites, Phencyclidine and amphetamines. The laboratory shall test only for these substances within the limits of initial and confirmation tests as currently defined by DHHS/SAMHSA. Initial testing will consist of a preliminary immunoassay (EMIT Screen). If initial testing results are negative, testing shall be discontinued. If initial testing results are positive, the results shall be confirmed using gas chromatography/mass spectrometry (GS/MS) techniques.

Under this Agreement, the following cutoff levels shall be used in determining test results as positive or negative:

Drug Class.	Prelim. Cutoff	Confirm. Cutoff
Marijuana metabolites	100 ng/ml	15 ng/ml
Cocaine metabolites	300 ng/ml	150 ng/ml
Opiate metabolites	2,000 ng/ml	2,000 ng/ml
Phencyclidine	25 ng/ml	25 ng/ml
Amphetamines	1,000 ng/ml	500 ng/ml

The laboratory will report to the MRO and subject to the MRO's investigation of

alternative medical explanations, positive results in the case where both the preliminary and confirmatory test results are positive as to the same sample and the MRO's independent investigation provides no reasonable alternative medical explanation. All initial and confirmatory testing shall be performed at a certified laboratory and not at any individual collection site.

In the event that tests are altered, invalid, diluted positive or positive test results, upon request to the MRO, each covered employee will be provided with a report of the confirmed positive results of each test that includes the types of tests conducted, the results of each test, the detection level used by the laboratory and any other information provided to the Employer by the laboratory.

F. Positive Test Results

In the case of alcohol testing, if a covered employee tests at a level greater than .04 grams per 210 liters of breath during the preliminary test, that employee will be immediately relieved from duty and not permitted to return to work for 24 hours following the administration of the test. In the event the 24 hour time period overlaps an employee's regularly scheduled shift, the employee may use any leave other than sick or compensatory time, to cover the overlapping time period. No further action will be taken until the results of confirmatory blood tests are received through the MRO.

In the case of a first time positive confirmatory test for alcohol or a positive test for drugs after review by the MRO, appropriate notification and receipt of results as indicated in Section E(4) above, the employee shall be provided the opportunity to participate in and satisfy a rehabilitation treatment program as recommended and administrated by the Employer's EAP. Employees who complete such rehabilitation program will be re-tested at random times, once every quarter for the following twenty-four months. Treatment and rehabilitation shall be paid for by the employee's insurance program. Any costs over and above any applicable insurance coverage shall be paid for by the Employer for initial treatment and rehabilitation. Employees will be allowed to use any accrued and earned paid time off for the necessary time off involved in the rehabilitation program. Once the employee successfully completes the required rehabilitation treatment, they shall be returned to regular full duty status. Once all follow-up care has been completed, and five (5) years have passed since the employee entered the program, the employee's personnel file shall be purged of any reference to drug/alcohol testing and treatment.

If an employee declines to participate in the EAP, they shall be immediately subject to disciplinary action as per the Department Rules and Regulations and in accordance with Article VIII.

If an employee tests positive for drugs and/or alcohol during the twenty-four month period after initial entry into the EAP, they shall be subject to disciplinary action as per the Department Rules and Regulations and in accordance with Article VIII. The employee shall be solely responsible for any costs, not covered by insurance, which arise from necessary additional counseling or treatment.

If an employee tests positive for drugs and/or alcohol a second or subsequent time, after completion of a required EAP and the passing of the twenty-four month quarterly testing period, they shall be subject to disciplinary action as per the Department Rules and Regulations up to and including discharge and in accordance with Article VIII.

Any employee who fails to provide a sample or appear for testing under any of the three testing circumstances in Sections B, C, and D of this Article will be considered to have a positive test result for purposes of disciplinary actions in accordance with Article VIII.

G. Employee Rights

Covered employees who voluntarily seek assistance with drug and/or alcohol related problems, shall not be subject to any disciplinary or adverse employment action by the Employer by reason of seeking such assistance, other than the Employer may require reassignment of the employee with pay if he is then unfit for duty in his current assignment. Such assistance must be sought prior to the provision of any biological sample which results in a positive test for the employee.

The Teamsters Local 436 and/or the employee, with or without the Teamsters Local 436, shall have the right to file a grievance concerning any aspect of this Article in accordance with Article X, including, but not limited to: contesting the basis for reasonable suspicion testing under Section C above, contesting the administration of any required test, contesting the significance and accuracy of any test, and contesting the consequences of any required test or result. The Parties agree that this Article is in no way intended to restrict, diminish or otherwise injure or impair any legal right that an employee may have with regard to such testing. Employees retain any such rights as may exist and may pursue the same at their own discretion, with or without the assistance of the Teamsters Local 436.

Any employee who tests positive for drugs and/or alcohol may request, within **fourteen (14) days** of notification of a positive result, that the separately maintained split portion of the sample that resulted in the positive test be submitted to an independent laboratory, certified as required in Section E (4) above, at the Employee's expense, for independent confirmation of the accuracy of the testing procedures. If such test is negative, the Employer will reimburse the Employee's expense for such independent confirmation.

Test results that result in an employee entering an EAP are "medical records" as defined in Ohio Rev. Code § 149.43 (A)(3) if they are utilized for diagnosis and treatment of a medical condition are therefore **not** public records subject to release by the Employer.

The Employer agrees that any communication, whether verbal, written, electronic or otherwise, made by an employee to any professional involved in an EAP is confidential and privileged. Such communication shall be protected from disclosure unless otherwise legally required. Information about an employee's participation in an EAP shall not be disclosed to anyone without written permission from the employee.

H. Testing Program Costs

The Employer shall pay for all costs involved with drug and alcohol testing as well as expenses related to the MRO, the collection facility, or the independent third party contractor designated to administrate the random selection process. All time spent administering a drug or alcohol test under this Article, including travel time, will be paid at the employee's regular rate of pay, or at their overtime rate, if applicable. Should a split sample test completed at the request of an employee after a confirmed positive result come back as a negative result, the Employer shall reimburse the employee for all

work time lost during the interim and the employee shall be immediately reinstated to full duty status with all records of the drug and alcohol testing expunged from the employee's file.

I. Employer's Responsibility

This Article was initiated at the request of the Employer. The Employer assumes sole responsibility for the administration of their policies and procedures regarding this Article and shall be solely liable for any legal obligations and costs arising out of the provisions and/or application of the Agreement regarding drug and alcohol testing.

J. Changes in Testing Procedures

The Parties recognize that during the life of this Agreement, there may be improvements in the technology of testing procedures which provide for more accurate testing. In that event, the Parties will bargain in good faith whether to amend this Article to include such improvements. If the Parties are unable to agree on amendments there is no obligation on either Party to negotiate, in accordance with Article XIII.

K. Conflict with Laws

This Article is in no way intended to supersede or waive any constitutional or other rights that any employee may be entitled to under Federal or State statutes.

ARTICLE XXXIV – LAYOFFS

1) Members of the bargaining unit may be laid-off only for lack of work or lack of funds.
2) In the event of a layoff situation, members of the bargaining unit will be laid-off in accordance with their departmental seniority (last hired, first laid off).
3) A member of the bargaining unit who is laid-off shall retain recall rights for a period of three (3) years from the last date of actual employment.
